## DETAILED ACTION

### *Election/Restrictions*

Applicant's election with traverse of claims 1-9, and 11, in the reply filed on 3/21/2006 is acknowledged.

The traversal is on the grounds that: (1) all the claims are sufficiently related to allow for examination of all claims together, (2) the restriction between the embodiment of Figure 9 and Figure 10 is unnecessary in that both show the claimed needle protector with a cap.

In light of Applicant's remarks, claim 10 will be examined with the elected claims 1-9, and 11.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Claim 2: Dillon et al disclose in Figure 2 the second opening (28) comprising a multiple profile window to receive and secure the tubing (12).

Claim 3: Dillon et al disclose in Figure 1a a retaining member (36) defines a slot for viewing the interior chamber.

Claim 4: Dillon et al disclose in Figure 5 one of the sidewall comprising guiding ledges (80).

Claim 5: Dillon et al disclose in Figures 5 and 6 the guiding ledges (80) extending inwardly from the sidewall including the retaining member.

Claims 6 and 7: Dillon et al disclose in Figure 5 the sidewall including an axial groove (74).

Claim 8: Dillon et al disclose the retaining member (36) comprising a detent.

Claim 9: Dillon et al disclose a outwardly extending radial flange (4) at open distal end.
